

2024 PRAGUE CYBER SECURITY ACADEMY (CSA)

Date: September 23—27, 2024

Are you a graduate student or young professional eager to understand the world of cyber security? The Prague Security Studies Institute (PSSI) invites you to apply for our prestigious 2024 Prague Cyber Security Academy (CSA), where the focus is on understanding the broader context, international relations, diplomacy, policy, and more.

About the CSA:

Launched in 2018, in collaboration with the Czech National Cyber and Information Security Agency (NÚKIB), the CSA is a unique educational course that focuses on cyber security policy. This week-long intensive program is designed for 25 participants from the Czech Republic and NATO/EU countries, offering a unique opportunity to learn from top experts and practitioners.

Why Apply?

- **Tailor-made curriculum that delivers** expertise in international relations, policy, and diplomacy as it relates to cyber security.
- In-person access to **expert lecturers** from the Czech Republic and abroad.
- **Holistic approach** that involves the public and private sector representatives and non-governmental senior experts.
- **Networking opportunities** that enable interaction with peers and professionals from NATO and EU countries.

Who Should Apply?

- Graduate students and young professionals from the Czech Republic and NATO/EU countries

Key Benefits:

- Gain in-depth knowledge of cyber security policies and experience a real-scenario simulation.
- Enhance your skills to address current and emerging cyber threats.
- Expand your professional network within the cyber security domain.
